1. WHAT ARE COOKIES OR SIMILAR TRACKING TECHNOLOGIES?

We use cookies on our Site, which are very small text files or pieces of code, which often include a unique identifier. When you visit our Site, it will request to store this text file on your device in order to remember information about you, such as your language preference or login information. We also use similar technologies to cookies known as “web beacons”, “pixels” or “tags”. These technologies do a similar job to cookies, allowing website operators to count page views and understand how visitors interact with and respond to certain content on a webpage. For the purposes of the remaining sections of this Cookie Notice, we refer to all cookies and similar technologies using the above features as “**Cookies**”.

You should be aware that applications you use to access our Site, such as your website browser, may also place cookies on your device when visiting our Site, or other websites. An example of this would be where you sign into Google Chrome using a Google Account. We do not have control over these third party cookies, so you will need to manage these cookies in the settings of the relevant applications.

For more details on cookies and similar technologies, please visit <https://www.allaboutcookies.org>.

2. WHAT IS THE DIFFERENCE BETWEEN FIRST PARTY AND THIRD PARTY COOKIES?

We use “first party cookies” and “third party cookies” in connection with our Site:

- **First party** cookies are cookies placed by us to collect information about you.
- **Third party** cookies are cookies placed by third party website operators. Information about you collected by those third party cookies will be shared with the relevant third party. Please refer to the relevant third party website operator’s cookie and privacy notice for more details about the information they collect and how they use it.

3. HOW LONG DO COOKIES LAST?

All cookies have expiration dates that determine how long they stay in your browser:

- **Session Cookies** – these are temporary cookies that are placed on your device during your browsing session and then expire (and are automatically erased) whenever you close your browser.
- **Persistent Cookies** – these are designed to last for a pre-defined period of time, which varies depending on the nature of the cookie. Persistent cookies stay in your browser until they reach their individual expiry date, or until you manually delete them.

4. WHAT INFORMATION DO WE OBTAIN THROUGH COOKIES AND WHO RECEIVES THIS?

The information we obtain through Cookies include your device IP address, domain name, identifiers associated with your devices, device and operating system type and characteristics, web browser characteristics, language preferences, clickstream data, your interactions with the Site (such as the web pages you visit, links you click and features you use), the pages that led or referred you to the Site, dates and times of access to the Site, and other information about your use of the Site.
